This is not because of iTunes. This is because there are two files with the same name: iTunes-Trey Songz-I Gotta Make It (Deluxe Version).zip. Each has a different size. The big one is 2.61M and the other is just 12k. The bigger one is empty of course and can be removed and replaced with the smaller file. Delete this: iTunes-Trey Songz-I Gotta Make It (Deluxe Version)-2.61M.zip and replace with this: iTunes-Trey Songz-I Gotta Make It (Deluxe Version)-12k.zip Then click download. The files you just uploaded will replace the older ones. There is no need to upload the file to iTunes. However, it is a good idea to upload the 12k file to iTunes just to make sure. Step 4 Log back into your iTunes account. Step 5 Click on My Account at the top left corner. Step 6 Click on iTunes Connect. Step 7 Click on Manage App Agreements. Step 8 Click on the gray text with the down arrow. Step 9 Click on "I Agree". Step 10 Click "Manage". Step 11 Click on the link "Details and Review" and wait for your details to load. Step 12 In the "App Details" tab, scroll down to the "Status" section and click the "Change" button. Step 13 Under "Status" click on "Waiting For Review" and then "Approved". Step 14 When the status is "Approved" click on "Submit" Congratulations you've made your iPhone application approval! Please do note that there are some things you need to do before you can approve your application: Go to the iTunesConnect site. Click on the arrow under the Apps section and scroll down to Applications. Click on your Application on the Applications list. In the App Status column, you will see a blue arrow. Click on the blue arrow to open the details. Click on [◆ 82157476af](#)
